## AVVISO PUBBLICO MANIFESTAZIONE DI INTERESSE

PER LA SELEZIONE DI PARTNER PER LA CO-PROGETTAZIONE E LA PRESENTAZIONE

DI UN PROGETTO DA CANDIDARE AL PRIMO INVITO DEL BANDO EUROPEO

“EUROPEAN URBAN INITIATIVE – EUI” INCENTRATO SUL NUOVO BAUHAUS EUROPEO

### ALLEGATO B REV. – Proposta Progettuale

#### A) Anagrafica partner

Delivery Partner	
Name of organisation (original)	
Organisation type	<p><i>Please select the organisation type from the drop-down menu:</i></p> <ul style="list-style-type: none"><li>• <i>Local public authority</i></li><li>• <i>Regional public authority</i></li><li>• <i>National public authority</i></li><li>• <i>Sectoral agency</i></li><li>• <i>Infrastructure and (public) service provider</i></li><li>• <i>Interest groups including NGOs</i></li><li>• <i>Higher education and research organisations</i></li><li>• <i>Education/training centre and school</i></li><li>• <i>Enterprise, except SME</i></li><li>• <i>SME</i></li><li>• <i>Business support organisation</i></li><li>• <i>EGTC</i></li><li>• <i>International organisation, EEIG</i></li><li>• <i>General public</i></li><li>• <i>Hospitals and medical centres</i></li><li>• <i>Other</i></li></ul> <p><i>Note: If 'Other' selected, please specify within the 'Partner description...' text box below, the type of organisation.</i></p>
Partner description and department/unit/division concerned	<p><i>Provide a short description of the organisation including indicative number of employees and experience in the</i></p>

	<p><i>management and or participation to EU-funded projects. Please provide a link to the organisation's website.</i></p> <p><i>If relevant, list the departments, units and divisions that will be involved in the implementation of the project.</i></p>
<p>Competences and experiences in relation to the challenge addressed</p>	<p><i>Describe the main reasons why the Delivery Partner should be involved in the implementation of the project (specific competencies and expertise). Describe the main legal and operational competencies and experience of the organisation in relation to the challenge addressed and to the proposed project. Demonstrate that the Delivery Partner is best placed to implement the project.</i></p>
<p>Experience in participating in and/or managing EU co-financed projects or other international projects.</p>	<p><i>If applicable, describe the main experience of the organisation in participating and/or managing EU co-financed projects or other international projects. Please list max 3 projects that are of relevance to the topic addressed as well as the programmes that have funded them. . Provide information on the role of the organisation in the projects listed (Lead Partner, partner, observer, etc.)</i></p>

**B) Proposta di azione progettuale (descrivere il tipo di azione/soluzione che si propone di realizzare nell'ambito del progetto)**

Main challenge(s) to be addressed
<i>What is the main urban challenge(s) that will be tackled by the project? Explain why you chose to address this challenge. Include a short description of the context of the urban area by describing the extent of the challenge to be addressed, its breadth and depth at local level and its different dimensions (social, economic and environmental dimensions of the challenge). Please describe how the identified challenge(s) is/are relevant to the topic of the Call for Proposals.</i>

Proposed solution
<i>Describe the innovative solution you propose in order to tackle the main challenges identified above. Clearly describe the proposed solution (presenting the main strands of activities) and explain why and how it will address the challenge(s) in the urban area (place-based approach<sup>1</sup>). Please include reference on how the objectives and expected results of the proposal will lead to the desired change (i.e. tackle the challenge). Describe how the proposed solution provides a significant and durable contribution (beyond project end) to address the challenges targeted in the relevant urban area.</i>

The proposed solution has not been previously tested (innovative component)
<i>Demonstrate that the proposed solution is innovative. Demonstrate that the proposed solution (and its main components) has not been previously tested and implemented on the ground in the concerned urban area and elsewhere in Europe.</i>

The proposed solution builds on and goes beyond existing practices
<i>Justify how your solution goes beyond existing practices. Provide at least 3 references of existing practices. To fill in this section, urban authorities are requested to carry out a benchmark analysis of relevant existing good practices (in Europe and beyond) to explain how and to what extent the proposed solution is different from existing good practices and how and to what extent it will build upon these. Existing online databases (e.g. CORDIS for Framework Programmes, IEE and LIFE projects database etc.) and cities' networks best practices and working groups (e.g. URBACT, Eurocities, Energy Cities, etc.) are potential relevant sources of information to carry out your benchmark.</i>

---

<sup>1</sup> For more information on the concept of place-based approach to urban development, applicants can consult the New Leipzig Charter ([https://ec.europa.eu/regional\\_policy/sources/docgener/brochure/new\\_leipzig\\_charter/new\\_leipzig\\_charter\\_en.pdf](https://ec.europa.eu/regional_policy/sources/docgener/brochure/new_leipzig_charter/new_leipzig_charter_en.pdf)), where the following definition can be found: "Places should be regarded as reference points for an integrated horizontal and vertical approach. Urban strategies and urban funding instruments should be based on sound analysis of the specific local situation, especially potential benefits and risks, stakeholders and restrictions, while following place-based development. This will enable endogenous urban transformation and reduce local socioeconomic inequalities. Appropriate formal and informal instruments should cover all spatial levels, from neighbourhoods to local authorities and wider functional areas including the metropolitan level."

### **Green and digital transitions**

*For the 2021-2027 EU programming period, special attention is given to tackling environmental and climate challenges, in view of the transition towards a climate-neutral economy by 2050, the goal set in the European Green Deal. Digital technologies are foreseen as one of the crucial tools to achieve it.*

*Explain how the proposed solution makes a clear contribution to the green and digital transitions aiming at reaching EU climate neutrality. Demonstrate how your project is in line with the efforts to tackle environmental and climate challenges and provide concrete examples how it contributes to them (e.g. it includes "zero carbon" or green services, or activities/actions reducing carbon footprint).*

*Provide examples of digital components of your project that you will introduce in order to facilitate the green transition (e.g. activities involving the management of big data, the use of Information and Communication Technology, Artificial Intelligence, the Internet of Things etc.).*

### **Potential obstacles and resistance to the overall proposed solution**

*Describe if and which obstacles or resistance you expect regarding the general implementation of the innovative solutions proposed; if so, how they will be managed and/or overcome. Obstacles and resistance can for example refer to: national or legal framework not mature yet for the overall innovation and project, changing financial and political conditions that would make the project obsolete, lack of long term sustainability, lack of political commitment, opposition from organised groups of inhabitants, undesired outcomes fostered by the project (uncontrolled urban sprawl, gentrification, environmental impact, etc.), ...*

### **Synergies with other projects and initiatives**

*What are the synergies with past or current EU and other local projects or initiatives the project makes use of? Describe any other projects and initiatives (EU funded or not) already implemented at local level to address the identified challenge. Explain how the projects/initiatives identified will be taken into account by the proposed UIA project, in particular identify the elements that will be re-used and/or improved. Describe the synergies with other ongoing projects dealing with similar issues, if any.*

C) Workplan (descrivere la modalità attuativa e le fasi di realizzazione dell'azione progettuale proposta e, in caso proposta associata, specificare per ogni work package il partner responsabile)

Work plan (repeat the following table for each proposed activity) and budget				
Work Package Phase	Work Package Title	Work Package Description	Work Package Owner	Work Package Budget
<p>1 - Preparation and Initiation phase</p> <p>2 - Project Management</p> <p>3 - Monitoring and Evaluation</p> <p>4 - Communication and Capitalisation</p> <p>5 - 8 Thematic</p> <p>9 - Transfer</p> <p>10 - Closure</p>				

### Outputs

*Define main outputs you aim to deliver through this Work Package*

### Investment(s) (add more table (to add investments))

*For Work Package, please add as many investments as needed. Once an investment element is created, it will be listed below.*

*Investments shall be foreseen in the EUI-IA projects only to the extent that they are necessary for the achievement of the project's outputs and results. Moreover, an investment is a project output that remains in use by the project's target group after the completion of the project. Depending on the nature of the innovative solutions proposed, investments should be essential support (infrastructures/equipment) for the related Thematic Work Package or key outputs of the project itself. Investments should be proportionate to the Work Plan and budget and should therefore represent good value for money.*
